First Things First… Registrations

Key Things to Know About Registering

1. Multiple Systems Are Required

If applying to a federal grant opportunity, organizations must be registered with both SAM.gov and Grants.gov.

2. Registering with SAM.gov Must be Done First

Registration steps are sequential. You must obtain a Unique Entity Identifier (UEI) through SAM.gov before registering in Grants.gov.

3. Information Across Systems Must Match Exactly

Your legal business name and entity details (like the EBiz POC) must match across all systems. Even small discrepancies can cause delays.

4. It Can Take Several Weeks

So, start early. SAM.gov registration also requires annual renewal and must be active at time of submission. Check status early and often.

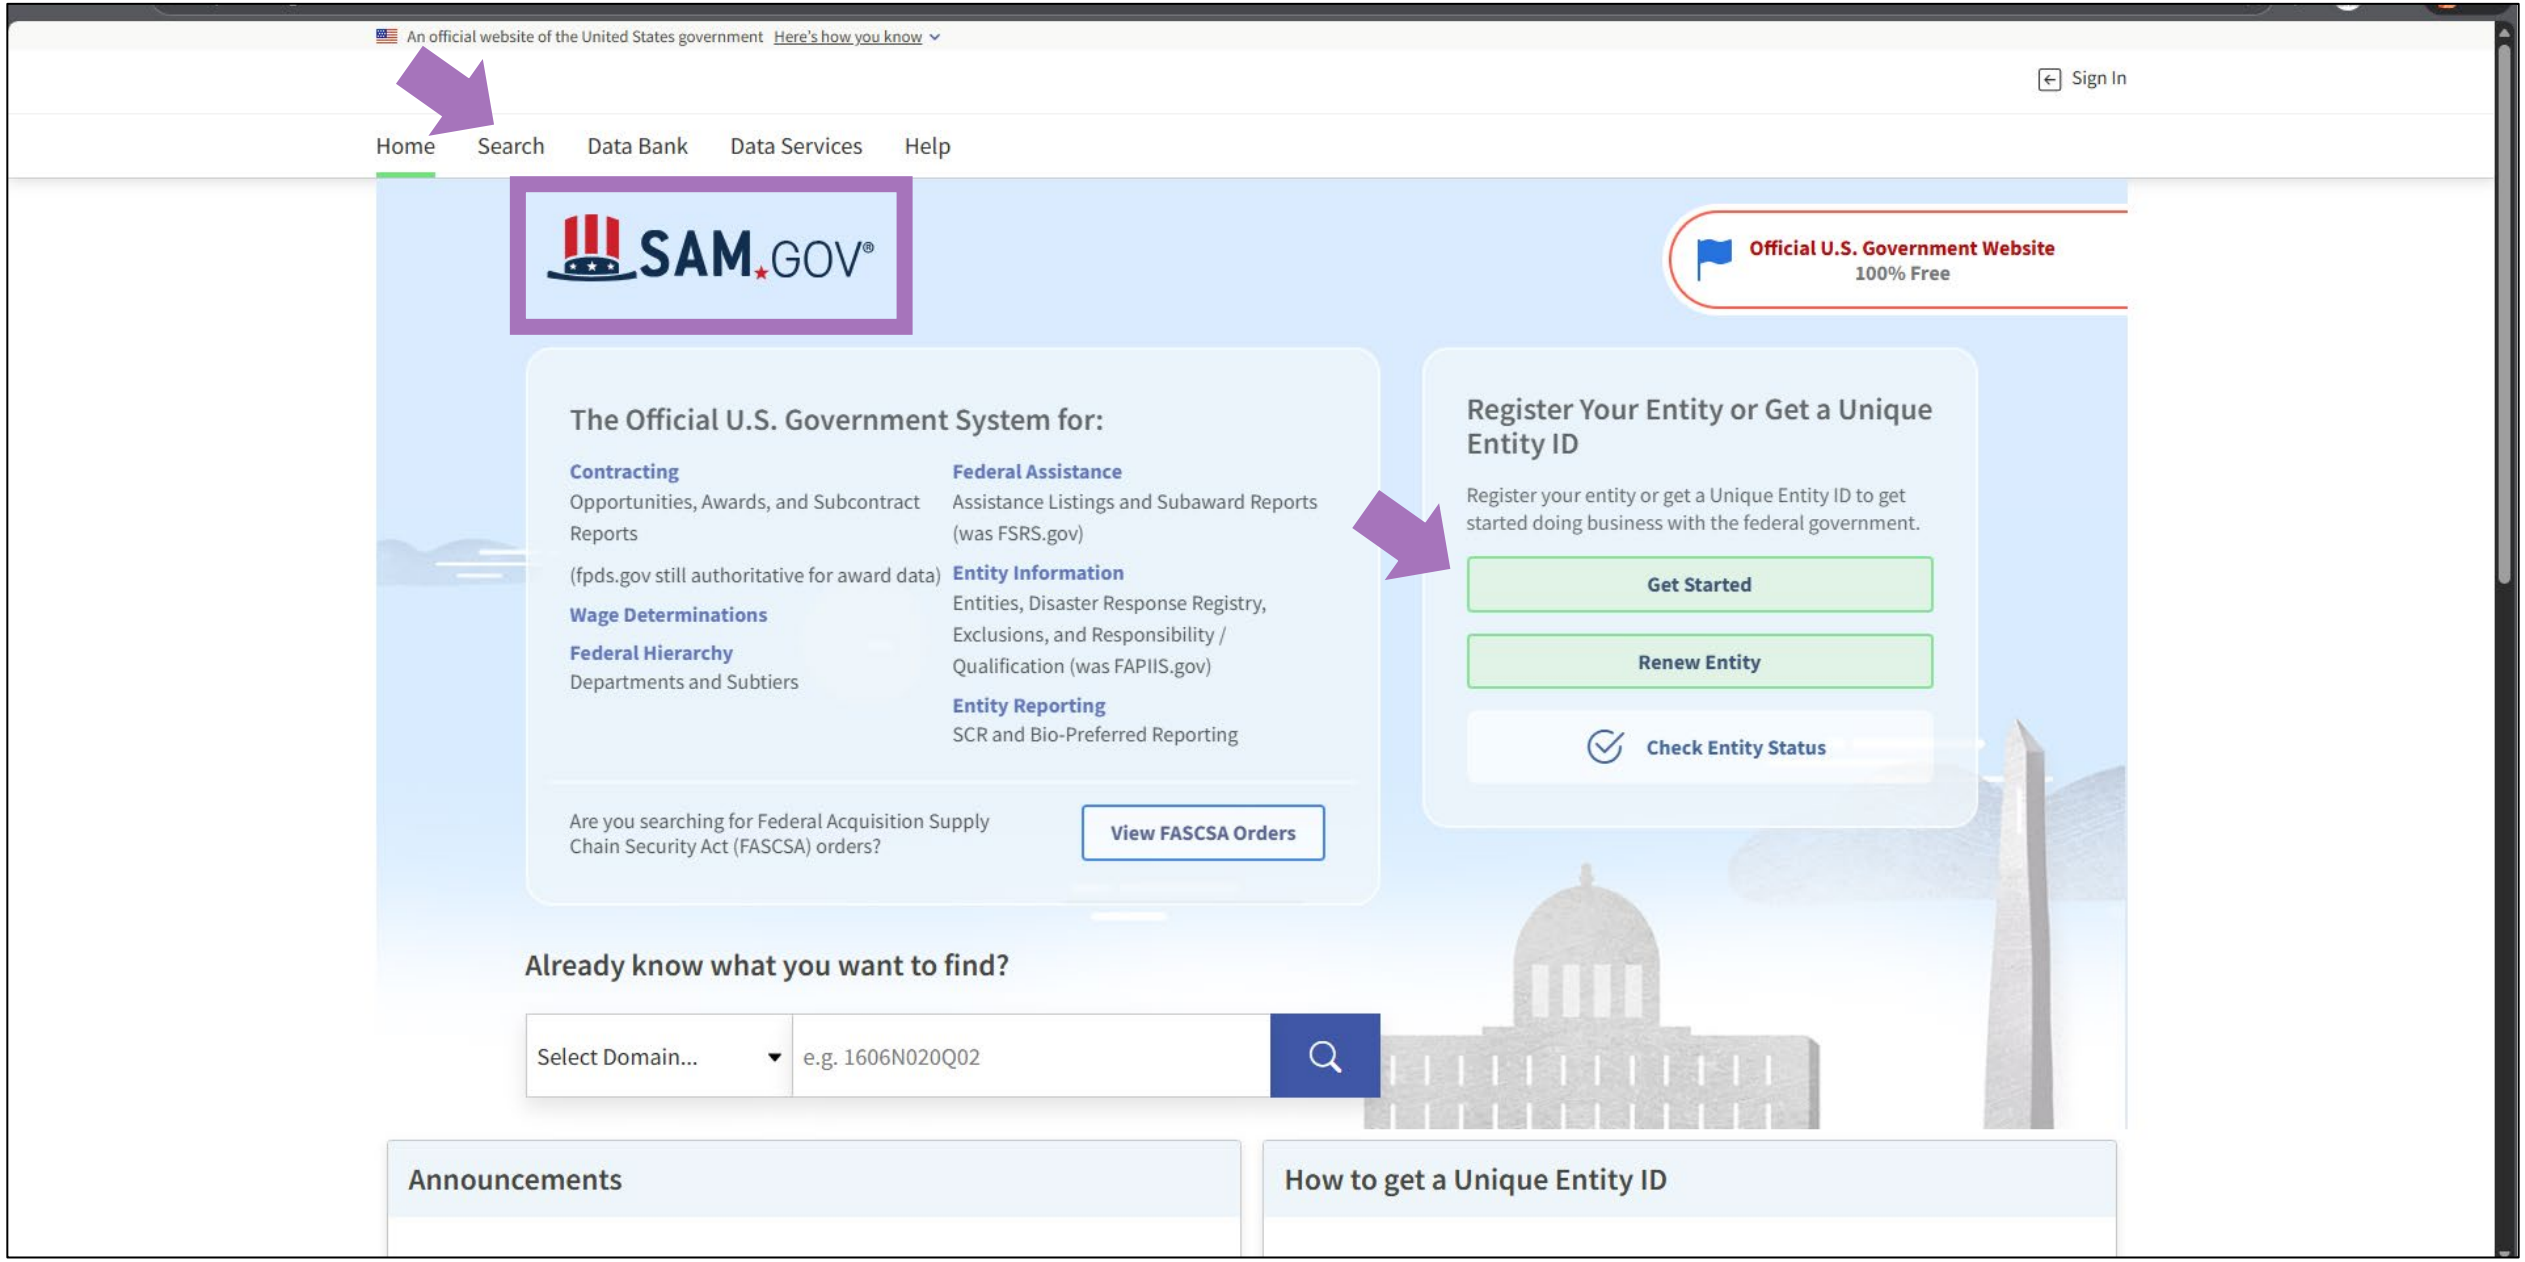

5. Role Assignments Matter

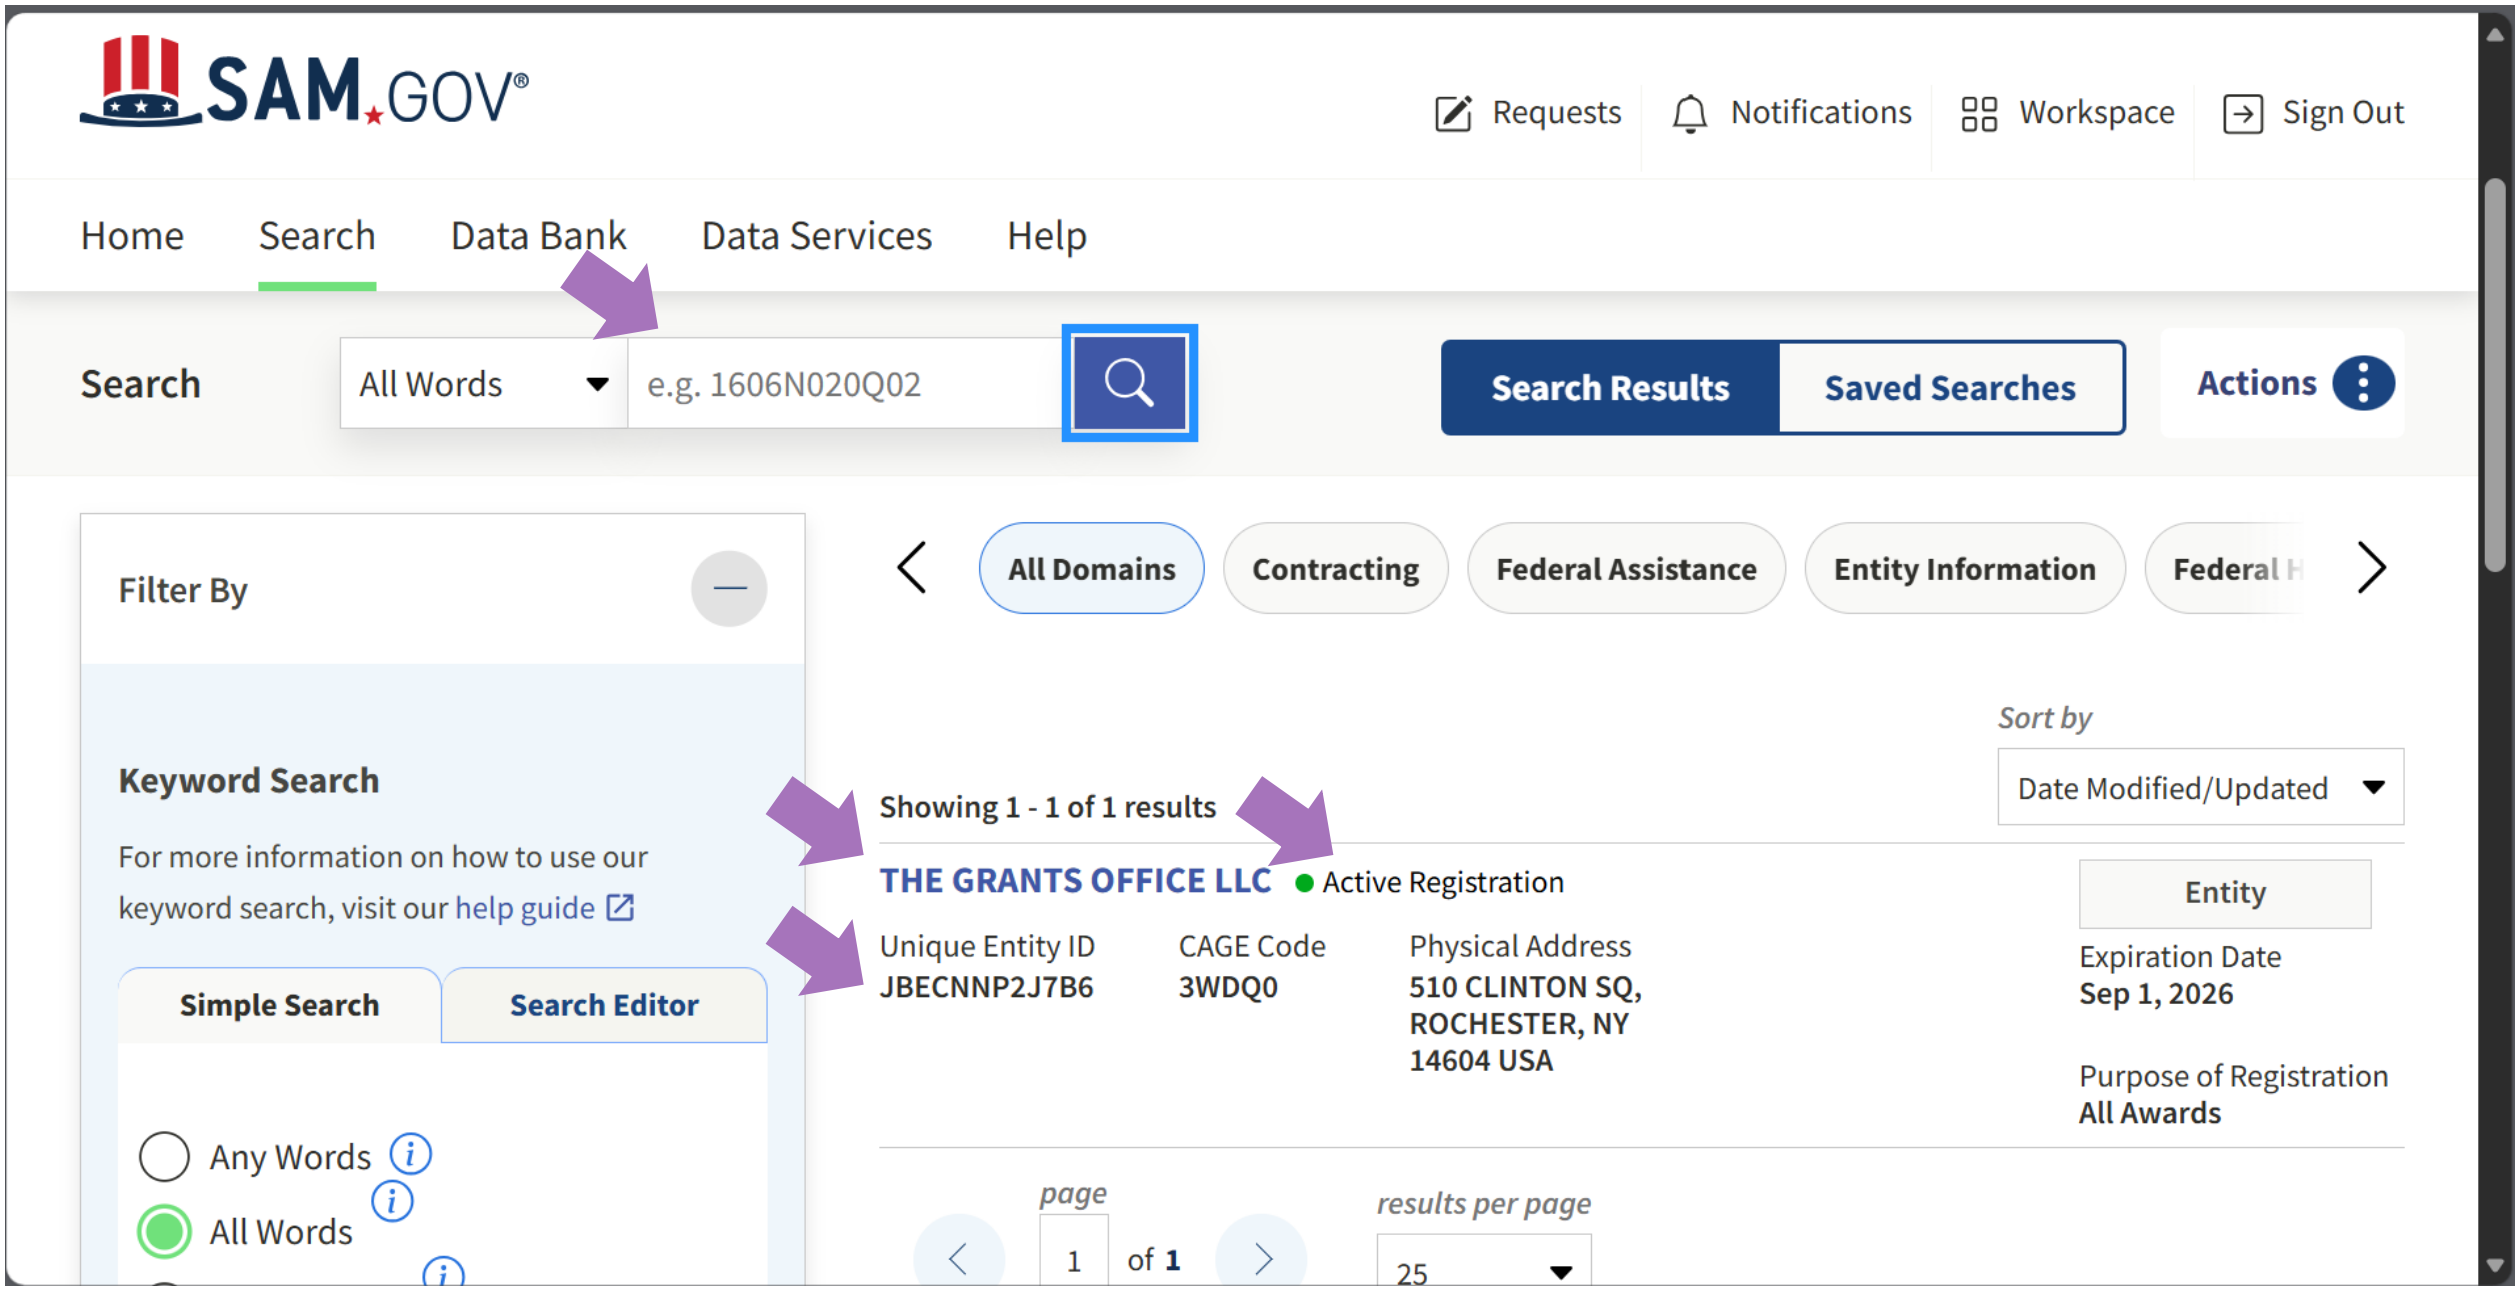

Roles are assigned in Grants.gov, each with specific access / permissions. Update / maintain these roles with intention.

Registration Roles and Responsibilities

The Organization's Primary EBiz POC *(typically someone with org authority & oversight of grants/finance)*:

1. Register your org in SAM.gov and get a UEI.
2. Register in Grants.gov (with the same info / email address used in SAM.gov).
3. Add an "Organization Applicant Profile" within Grants.gov (using the UEI obtained from SAM.gov).
4. Delegate roles to other users within Grants.gov.

Anyone else that will be involved in the Grants.gov application process:

1. Register in Grants.gov.
2. Add an "Organization Applicant Profile" and enter your org's UEI where directed.

Note: Once you save your profile, an email will be sent to your org's Grants.gov access manager (the EBiz POC or delegate), who will assign you your role in the system.

SEARCH TIPS

All keyword searches in Grants.gov are comprised of two components: (1) words and (2) operators. For words, you may search using a single word (e.g., water) or phrases (containing multiple words such as water conservation). To narrow or broaden your keyword searches, use the operators defined in the table below.

Search Operators

Operator	Description	Example
" "	Exact phrase: To search for an exact phrase match	*"water conservation"* This searches for opportunities that contain the exact phrase of water conservation.
OR or ||	This is the default conjunction operator. If there is no operator between two words, the operator is used. The operator links two words and if either or both of the words exist then display them in the results. This is equivalent to a union of sets. OR must be in ALL CAPS otherwise it is interpreted as a search word.	*water conservation* This searches for opportunities that contain water, conservation, or both.
AND or &&	The operator finds results where both words exist. This is equivalent to an intersection using sets. AND must be in ALL CAPS otherwise it is interpreted as a search word.	Example 1: *space* AND *flight* Example 2: "*water conservation*" AND "*habitat restoration*" This searches for opportunities that contain *space* and *flight* (Example 1) or *water conservation* and *habitat restoration* (Example 2).

How to Apply via Grants.gov

Common Grants.gov Pain Points and How to Avoid Them

Common Pain Points & How to Avoid Them

1. Registration / Annual Renewal Delays

Register in SAM.gov 4–6 weeks early. Confirm active status before applying. Remember renewals aren't automatic. Set annual reminders.

2. Role & Workspace Confusion

Ensure accounts are linked to the organization profile (not individual). Confirm AOR status / assign a backup. Confirm folks know what to do when.

3. Ineffective Search Strategies

Search a few different ways to make sure you aren't missing anything (keywords, agency, etc.). Apply filters strategically. Set up email alerts.

4. Opportunity Overload

Confirm eligibility. Clarify internal funding goals and focus on opportunities that strongly match your mission and capacity to implement.

5. Forecast vs. Posted Confusion

Track forecasted opportunities for preparation (such as early conversations with partners), but know the opportunity is not yet live.

Common Pain Points & How to Avoid Them

6. Misinterpreting Eligibility & NOFO Requirements

Review the NOFO thoroughly, confirm your entity type qualifies, create a compliance checklist, and conduct a final compliance review.

7. Validation & Formatting Errors

Use the correct application package, follow formatting rules precisely, complete the SF-424 first, and use the “Check Application” tool.

8. Deadline Surprises

Set an internal deadline at least 48 hours early and aim to submit 24–48 hours before the official close.

9. Post-Submission Uncertainty

Monitor application status in the system, then watch for direct communication from the awarding agency.

10. The Assumption that Submission Equals Success

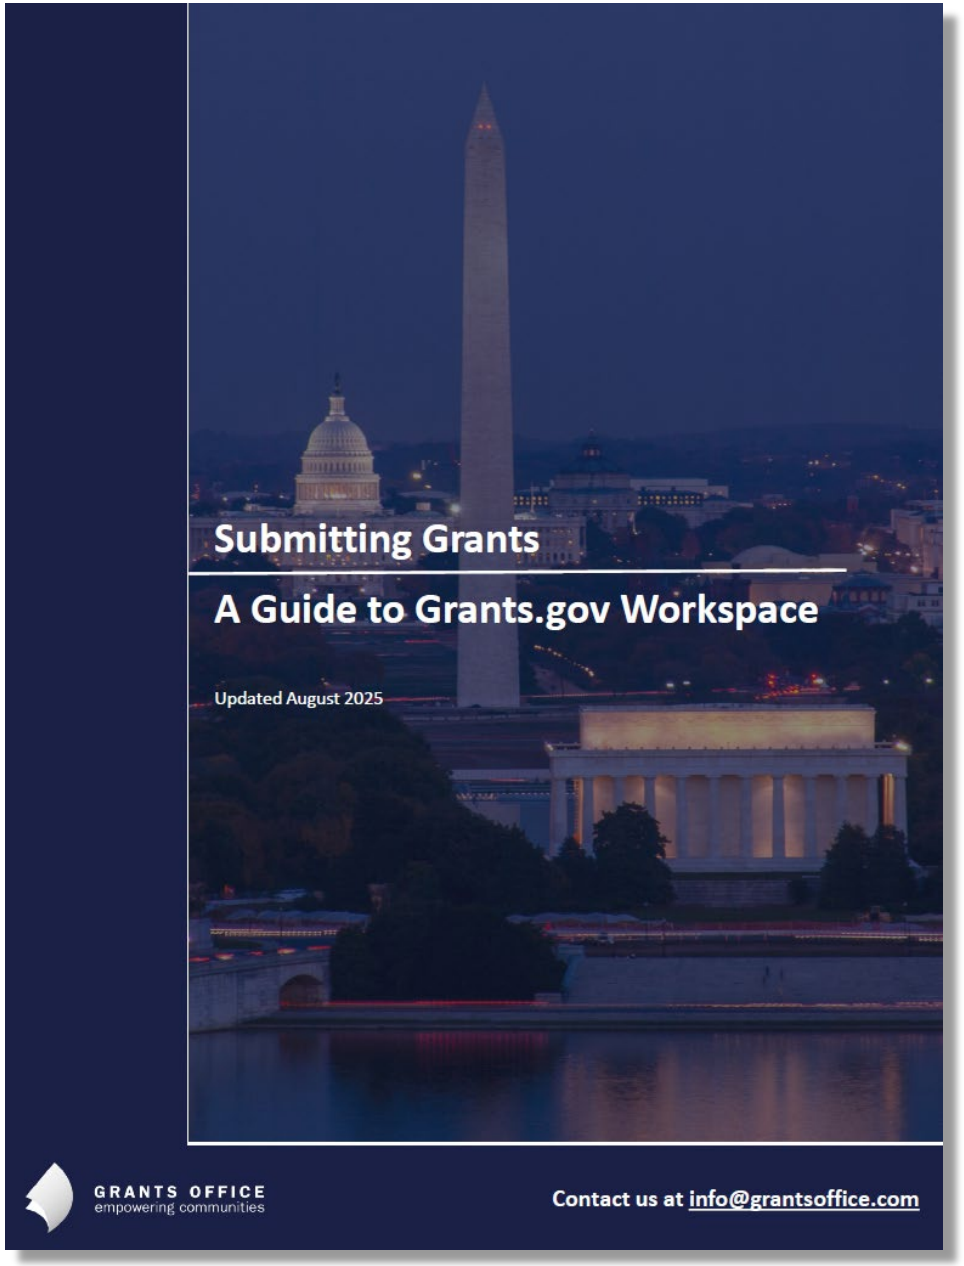

Verify and document everything after submission. Tack application status. Save confirmation emails. Download the full application package.
